

Form 1023 Narrative of Activities

Knights of The Kingdom of Christ Order

Form 1023 Narrative of Activities

Overview *Knights of The Kingdom of Christ Order is a nonprofit corporation organized for charitable, educational, religious, historical, and related public-benefit purposes. The organization uses a chivalric and historical framework inspired by the medieval Knights Templar to promote charitable service, educational programming, spiritual formation where applicable, and preservation of historical understanding. The organization does not operate as a militia, paramilitary body, private security force, or law-enforcement organization, and all titles and ranks used by the organization are ceremonial and administrative only.*

Charitable Activities *The organization plans to conduct charitable programs that may include food and supply drives, emergency assistance fundraising for families in need, scholarship support, small charitable grants, seasonal giving campaigns, volunteer service projects, and support for community relief efforts. Beneficiaries will include members of the public selected according to need, charitable partner organizations, students, or vulnerable populations identified through the organization's charitable criteria.*

These activities will occur throughout the year as funds, volunteers, and community partnerships permit. The organization expects that a meaningful portion of its resources will be directed toward public-benefit charitable programming rather than private recreation.

Educational Activities *The organization will provide educational programming related to medieval history, the Knights Templar, ethics, service, symbolism, and related cultural or historical topics. Programming may include public lectures, workshops, discussion groups, reading circles, online articles, newsletters, educational handouts, recorded presentations, and heritage events open to the public or offered at low cost.*

Educational content will emphasize accurate historical interpretation and public learning rather than mythmaking or claims of official historical succession. The organization may also educate members on nonprofit governance, ethics, service, leadership, and responsible stewardship.

Religious or Spiritual Activities *If adopted by the Board and consistent with the mission, the organization may offer optional spiritual or devotional programming, such as prayer gatherings, chaplaincy support, retreats, memorial observances, ethical reflections, or educational discussions on faith and service. These activities are intended to support spiritual formation and pastoral care and will be conducted in a manner consistent with applicable law and the organization's governing documents.*

Historical and Heritage Activities *The organization intends to preserve and interpret the historical legacy associated with the Knights Templar and related traditions. It may maintain archives, collect educational materials, sponsor research, publish interpretive essays, host heritage events, and collaborate with historians, educators, clergy, museums, or cultural groups. These activities serve educational and historical*

purposes for both members and the public.

Membership and Internal Formation The organization may have internal membership classes such as Novice, Squire, Sergeant, Knight, and Chaplain. These classes are used for internal formation, service assignments, ceremonial participation, and governance eligibility only. They do not create ownership rights or governmental authority.

Members may participate in service projects, educational events, volunteer activities, charitable fundraising, and internal formation programs. To the extent events are members-only, those activities are designed to support training and coordination for the organization's exempt mission rather than private social enjoyment as an end in itself.

Fundraising The organization expects to raise funds through donations, dues, sponsorships, events, merchandise related to educational or ceremonial identity, and other lawful nonprofit revenue streams. Donations will be used to support exempt activities, administrative needs, charitable projects, educational programming, and compliance costs. Where required, the organization will comply with state charitable solicitation registration laws before soliciting donations.

Compensation and Volunteers At startup, the organization expects to rely substantially on volunteer leadership. If compensation is later paid for administrative, educational, clergy, consulting, or support services, it will be reviewed and approved under the organization's conflict-of-interest and governance policies and will be limited to reasonable compensation for actual services rendered.

Facilities and Operations Activities may be conducted in rented meeting spaces, houses of worship, community facilities, libraries, educational venues, online platforms, or other lawful locations. The organization may operate through a parent body and, if later adopted, chartered subordinate chapters or commanderies that remain subject to the parent corporation's governing documents and oversight.

Public Benefit Emphasis The organization is not organized for private gain. Its activities are intended to advance charitable, educational, historical, and religious purposes for the benefit of the public and the community. Any member fellowship or ceremonial structure is subordinate to and supportive of those exempt purposes.
